

PREMIUM 45°

DISTRIBUTORS

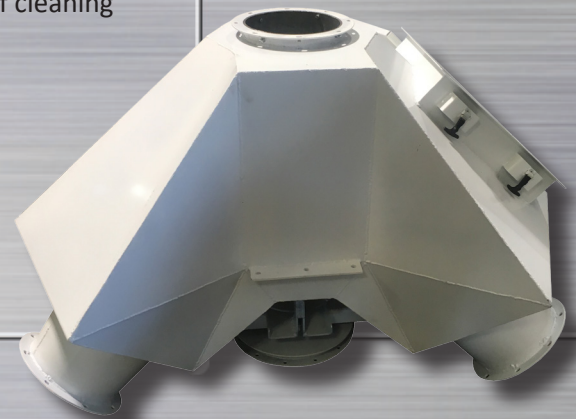

- Inverted cone bottom design to minimize dust and moisture build up. Self cleaning design requiring very little maintenance.

- Brush Seal Sweep helps prevent cross contamination. In addition it sweeps the inverted cone bottom every time you move the inner spoon, manually cleaning the distributor from the ground!

- Spring tensioned locking mechanism for perfect alignment to avoid cross contamination.

FEATURES:

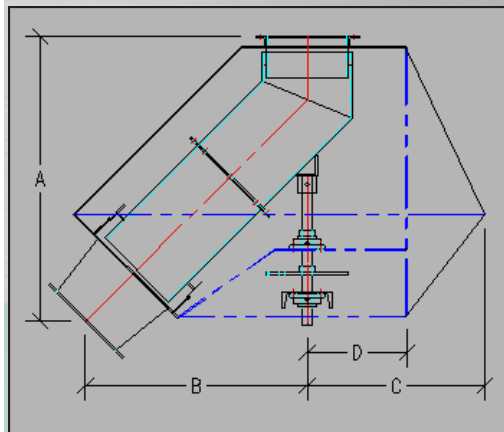

- Manual Operation with EZ – Control
- Painted, powder coated, or hot dipped galvanized
- Hinged inspection door
- 10 ga outlets, 3/16" inner spout standard

- Unique Flat Back / Wing Back compact design provides added benefits for spouting in a wider area up to 225° compared to only 180° of a conventional flat back distributor.

DIMENSION TABLE (INCHES)

NOM SIZE	NUMBER OUTLETS	A	B	C	D
8	4	30 15/16	22 9/16	N/A	12
	6	30 15/16	22 9/16	17 15/16	12
